QHD 2K & 1080P, Dual-Camera System

The device is constructed of durable and lightweight aerospace aluminium alloy. It is also certified with an IP67 rating, meaning that it could withstand rain, snow and dust. There is no doubt that the INNOW K6 Powersports Cam will perform well even in the harshest weather conditions.

Rearview Mirror Function

Worrying about cars or trucks behind?
Need to turn around to check again and again to be sure you are safe? With the rear camera of K6, you can get live streaming on your phone, and you will be safe as it works as a perfect rearview mirror.

User-Friendly Camera Ensuring Hassle-Free Experience

The K6 Dual-Camera offers a more convenient operation, press the button on the DVR and it will start to record both front and rear cameras.
